# UNDER THE HOOD

Features	Original Lavit	Lavit Next Gen	Purpose of the change
Cold Dispense in the cup	42.3 F	34 F	
Carbonation Cold Dispense in the cup	2.78, vol	3.7, vol	
Carbonated with Capsule in the cup	~2.3, vol	3.1 – 3.4, vol	
Hot Water Heater	N/A	0.5lt Boiler	<i>Tea, soup, coffee, and broth</i>
Cooling	Ice Bank	Aluminum Block	<i>More reliable than an ice bank because it is less complicated</i>
CO2 Compressor	R34A (Freon)	R290 Refrigerant	<i>Better for the environment</i>
Sterilization	Ozone	2 UV Sterilization Lights	<i>More reliable and quieter. We are now also sanitizing the backflow</i>
IOT	N/A	Cellular IOT	<i>Customer Metrics, Remote Diagnostics</i>
Manufacturer	China - Lonsid	Italy - BevCo	<i>Improved MFG, BevCo has deep knowledge of carbonated machines</i>
Weight	48 lbs	~80 lbs	<i>Stainless steel housing, the addition of the boiler, switch to aluminum block</i>
Height with Lid Closed	17 inches	19.7 inches	<i>Ability to use water bottles and fits under most commercial upper cabinets (24 inches)</i>
True Tabletop Unit?	Yes	Yes	<i>We kept this differentiator, all other "tabletop" units required drilling into the countertops</i>
Expected price to customer	\$695	~\$3000	<i>Distributors are willing to pay more for a more reliable machine</i>

Why have a  
**WATER COOLER?**

WHEN YOU  
CAN HAVE A  
**WATERBAR™?**

**HOT**

**STILL**

**SPARKLING**

Over **20** FLAVOR  
VARIETIES
